

EngineeringCAS™ optimizes the admissions process for all stakeholders.

The first and only Centralized Application Service (CAS™) for engineering programs, EngineeringCAS™ brings admissions offices an improved way to recruit, admit and enroll best-fit students while saving money and headcount each admissions cycle. So you can focus your efforts on building better engineering classes, Liaison offers the national platform for driving applicant volume while providing an optimized applicant experience at no cost to participating programs.

EngineeringCAS offers a single application portal, which benefits applicants by:

- **Streamlining the process** for researching and applying to multiple programs of interest.
- **Offering a modern application experience** that guides them through the application process.
- **Providing 24/7 access** to real-time application status updates.

“I'm looking more at enrollment management and how EngineeringCAS can be used to better understand what my actions should be, and for those actions, what my yield potentially can be.”

CRAIG G. DOWNING, PH.D.
Associate Dean of Lifelong Learning
and Head of the Department of
Engineering Management

ROSE-HULMAN
INSTITUTE OF TECHNOLOGY

EngineeringCAS adds your school and programs to a global engineering education marketplace, benefiting your **admissions office** by:

- **Driving awareness of all of your engineering programs** through a streamlined application process and communications tools that enable targeted, personalized communications to those interested in your program.
- **Decreasing time to decision** by providing a processing team as an extension of your staff, scanning of transcripts and packaging application components.
- **Providing insight into enrollment trends and performance** on your campus through robust analytics tools.

EngineeringCAS benefits the **engineering discipline as a whole** by:

- **Collecting and delivering consistent, actionable data** about national, discipline-wide enrollment and recruitment trends.
- **Facilitating enrollment projections** to help guide creation of data-driven recruitment strategies.
- **Creating an opportunity to share best practices** for building a better engineering class, and ultimately a better workforce.

EngineeringCAS Features

Applicants have access to:

- A single, mobile-friendly application.
- Tools to facilitate official transcript requesting and unofficial uploading.
- A platform for requesting and packaging letters of recommendation.
- Status updates.
- Applicant support to guide them through the application process.

Institutions receive free:

- Program promotion.
- Support throughout the on-boarding process and on-going throughout each applicant cycle.
- Scanning, processing and packaging of application materials.
- Enrollment management software, which includes workflows by program, scoring rubrics and interview management.
- Reporting and analysis tools.

“The potential that I see in EngineeringCAS is almost limitless. It brings together all the aspects that you would need within enrollment management.”

DAVID T. POOLE
Director of Admission

Why Liaison?

Global Reach

31,000+ programs across
1,000+ campuses use
Liaison's admissions tools.

Quick Implementation

Implementation of
EngineeringCAS will
take just weeks.

Extensive Experience

Founded in **1990**, Liaison has
spent nearly three decades serving
higher education and processes
2,500,000+ applications each year.
